

YEAR 2

Year 2 have been learning about the first voyage of Captain Cook aboard the Endeavour, which set sail in 1768. We re-enacted a voyage of discovery, and wondered whether we'd like to have taken part in that expedition or not. We've taken the role of Joseph Banks on board the Endeavour, and carried out scientific fieldwork to discover the kinds of plants and animals that live in our school grounds.

YEAR 3

Year 3 have been creating stone age tools out of soap and sticks! They have really enjoyed doing it!

YEAR 6

Year 6 have had a fantastic return to school - we have been investigating evolution and inheritance in our science lessons, playing tag rugby in PE and, most excitingly, we have been reading with our new 'Buddies in Reception'!

YEAR 5

Year 5 have really embraced netball at PE and break times!! Any more year 5 & 6 pupils who wish to sign up to the afterschool club are more than welcome!

Year 4

Year 4 have been busy heading “Into the forest” to learn about classification and discover inspiration for our stories.

We’re loving brass!

Hunting in the woods for story ideas

RECEPTION

Reception have been extremely busy exploring their classroom and making lots of new friend, including our year 6 buddy. They have taken part in yoga; been creating self portraits to decorate the classroom and much much more. We are so proud of how much of a flying start they have all got off too.

Year 1

Year 1 have been practising numbers up to 10!

They have really enjoyed the maths games they have been doing!
