

It has been wonderful to begin the school year again seeing the pupils arrive wearing their smartest uniform and their biggest smiles. This year, we have eleven new reception children who enjoyed spending their first day at school with their very own buddy. The year five and six pupils have taken on this responsibility and were confident to support the younger pupils upon their arrival, during their lunchtime and escorting them over to church for our New Starters' Service. Our New Starters'

Service was held in church and led by Rev John and Curate Anna where all of our new starters were given a warm Wincle welcome.

This term, our pupils will be learning about the Christian value of compassion. They will identify the definition of compassion and work together to find ways to display this value in school. Our pupils are always trying to shine like a star and have examined our school vision to identify key ideas: that they need to be courageous when trying something new, that we can inspire each other to shine brightly and that we can show a loving concern for those round us. Each day, we identify those pupils who are shining and finish the week together in church with a Celebration Worship.

As things begin to get back to normal, we are planning a number of trips for the pupils this term, providing them with the opportunity to visit other places and try new things. To link with their Tudor topic, Saturn are visiting Ford Green Hall, Mars are learning some key first aid skills and going on a woodland walk, and Jupiter are off on a one night residential to a local youth hostel.
